Library of Congress Catalog Card Number 67-12454

Printed in the United States of America

CONTENTS AND ARRANGEMENT

Scope

This *Dictionary Catalog* contains, in one alphabetic sequence, author, title, and subject entries for monographs, serials, and analytics as cataloged for the main collection of the National Agricultural Library and for its Bee Culture and Beltsville Branches. Descriptive information, including notes, has been reproduced as it appears in the card catalog. Library call numbers are also given. Tracings, however, have been omitted. In the card catalog, many tracings appear on the backs of cards; in some cases, changes in tracings have been made only on the main entry card. To have included incomplete or incorrect information in the published work would have been more misleading than helpful.

Information cards, such as those describing the history of a corporate body or geographic area, have been reproduced from the card catalog. Also included in the printed volumes are author and subject cross-references.

At the end of the *Dictionary Catalog*, there appears, in a separate alphabetical arrangement, a list of translations of articles in the Library collection. This file consists of main entry only under author or, if the article has no author, under its title. Translations of articles are not classified. They are identified by a consecutively assigned number shown in call number position.

Policies

The changes in policy and practice made throughout the years of its development are reflected in the *Dictionary Catalog*. The following basic tools were in use when this catalog was discontinued in December, 1965. They had been modified, interpreted, and supplemented in various ways to meet the changing needs of the Library:

A.L.A. Cataloging Rules for Author and Title Entries. Second Edition, 1949.

Rules for Descriptive Cataloging in the Library of Congress, 1949.

Scheme of Classification for the United States Department of Agriculture Library. Edition 5, 1940.

U. S. National Agricultural Library. Subject Heading List. Preliminary Edition, 1963.

A.L.A. Rules for Filing Catalog Cards, 1942.

Editing

The publisher provided an editorial staff to review the card catalog before publication. Working from guidelines provided by the Library, this staff concentrated on withdrawing obsolete cards from the catalog and checking its filing arrangement.

More than 1,500,000 cards were examined. With limited time to perform such a large task, complete accuracy cannot be assured. Only the most glaring instances of error or illegibility warranted correcting or retyping cards. No attempt could be made to recatalog old entries to bring them in line with current practices.

Filing Arrangement

Catalog Entries

Within any given part of the catalog, the page display of entries will make their arrangement obvious. However, a statement of some of the Library's basic filing practices will facilitate use of the catalog as a whole.

1. General order of entries is:

Author
Periodical title
Periodical title as author
Subject
Title

Single letters, whether abbreviations or initialisms, file at the beginning of that part of the alphabet.

History cards precede entries of the organization described. "See also" references follow the related entries.

Entries for editions of works are filed with the earliest first.

2. Government entries for departments, bureaus, offices, etc., in the more familiar languages are generally arranged under the jurisdiction by the key word following the preposition. For example:

U. S. Bureau of *Agricultural Economics*.

U. S. Dept. of *Agriculture*.

U. S. Bureau of the *Census*.

U. S. Office of *Foreign Agricultural Relations*.

Those in the less familiar languages are arranged word by word.

Contents and Arrangement

3. Subdivisions of corporate bodies are also generally filed on this key-word principle. There are known inconsistencies in the catalog, though. Notable examples are entries for bodies whose names begin with the following terms and include a prepositional phrase: Service, College, Commission, Committee, Conference, Institute, and School.
4. Subject entries are subarranged by author. Generally, the filing order is as follows:
 - Subject without subdivision
 - Subject with geographic subdivision
 - Subject with subject subdivision and inverted subject headings interfiled, e.g.,
 - Milk. Acidity.
 - Milk. Care and handling.
 - Milk, Certified.

Milk, Citric acid in.

Milk. Composition.

Subject followed by qualifying term in parentheses.

Translations of Articles

The author's name is listed in the form in which it appears on the translation. Entries are interfiled whether or not forenames are spelled out and whether or not a joint author appears in the heading.

Inquiries

Cataloging and classification questions about the entries in the *Dictionary Catalog* should be addressed to the Chief, Division of Catalog and Records, National Agricultural Library, U. S. Department of Agriculture, Washington, D. C. 20250.

AVAILABILITY OF REFERENCES CITED

Loans. Most of the material in the National Agricultural Library collection may be borrowed by employees of the Department of Agriculture and by other libraries. In requesting loans, please include the library call number shown at the beginning of the citation. Loan of periodicals is restricted to the Washington, D.C., area. Foreign statistical publications and rare books are loaned only by special arrangement. Requests should be addressed to: Division of Lending, National Agricultural Library, U.S. Department of Agriculture, Washington, D.C. 20250, except for publications with call numbers preceded by "B" or "Bee Cul." Request those with "B" from Beltsville Branch, National Agricultural Library, U.S. Department of Agriculture, Plant Industry Station, Beltsville, Maryland 20705; those with "Bee Cul." should be requested from Bee Culture Branch, National Agricultural Library, U.S. Department of Agriculture, Building A, Agricultural Research Center, Beltsville, Maryland 20705.

Free Distribution. Most of the printed publications of the Department of Agriculture and publications issued by the State Experiment Stations and the State Agricultural Extension Services may be obtained free of charge by applying directly to the issuing agency. The National Agricultural Library does not distribute them.

Reproduction. Microfilms or photoprints may be obtained from the Photoduplication Section, National Agricultural Library, U.S. Department of Agriculture, Washington, D.C. 20250. Copying charges are:

MICROFILMS: \$1.00 for each 30 pages or fraction copied from a single article or book.

PHOTOPRINTS: \$1.00 for each 4 pages or fraction copied from a single article or book.

RUSH SERVICE will be furnished upon payment of \$1.00 additional for each order.

Payment must accompany the order. Cash, Library coupons, check, or money order drawn to the National Agricultural Library, USDA, are acceptable. Payment for orders originating outside the United States should be made by international money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents deposit funds cannot be honored. Credit may be extended only to government agencies and institutions. Billing address should be indicated.

Library Coupons. Library coupons, valued at \$1.00 each, may be purchased in any quantity from the Photoduplication Section, National Agricultural Library, U.S. Department of Agriculture, Washington, D.C. 20250.

Borneo, British North.

Chartered 1881. Territory proclaimed British protectorate 1888 but continued to be administered by company until World War II. Known officially as British North Borneo 1886-92. Re-organized following World War II; lost status as British protectorate and became a colony of British Empire (July 1946). All entries are under name as indicated above.

On Sept. 16, 1963, became one of the states of the independent federation of Malaysia, and changed its name to Sabah.

Botanical society and exchange club of the British Isles.

Founded (1838) as the Botanical society of London. At the dissolution of the London society (1857), the exchange activities continued as the Botanical exchange club of the Thirk natural history society. The Thirk society was dissolved in 1866, the club continuing as the London botanical exchange club. Later changes in name were as follows: Botanical exchange club (1869-1878); Botanical exchange club of the

British Isles (1879-1909); Botanical exchange club and society of the British Isles (1910-1913); Botanical society and exchange club of the British Isles (1914-1947) (of.: Preface to v. 2, 1901-1910, of the club's Report... 451 B653); Botanical society of the British Isles (1947-)

Botanical society of America.

The original Botanical society of America was founded 1893. In 1906 a reorganization was effected by which this society united with the Society for plant morphology and physiology (founded 1896) and the American mycological society (founded 1903) to form a new society under the name of the Botanical society of America.

Botanical society of Montreal.

Founded 1855; dissolved 1858.
This was the first attempt to found a botanical society in Canada; another attempt was made in 1860, when the Botanical society of Canada was founded at Kingston, but this society existed only one year. In 1891 the Botanical club of Canada, affiliated with the Royal society of Canada, was organized and still continues its activities (1905)
